Subject: [External] RE: Docket number 2020-229-E.

Ladies and Gentlemen:

My name is James Bullard from Easley, SC. I'm writing in response to docket number 2020-229-E.

I support energy freedom in South Carolina because it saves me THOUSANDS in energy bills over the course of future years living in my home. It reduces my family's dependence on fossil fuels. It reduces our dependence on an energy grid that often leaves us without electricity during unpredictable weather.

I oppose Dominion Energy's direct attacks on solar and energy independence because they make wildly irresponsible decisions with our rates and the well-being of our community. If this were a more localized issue, if I could CHOOSE who provides my energy? That'd be one thing. But to force us to use their energy is downright unAmerican. I exercised what feels like my ONLY choice in the matter and now they're trying to take that too?! I don't appreciate it.

My family depends on solar energy because we like feeling as though our solar home energy system helps us do our share to protect our environment and ensure a cleaner future for the world.

Best,

James E. Bullard
